

Team Commitment Contract

Team Commitment Contract

Team Norms & Expectations

As a team, it is important to name norms and expectations that you share moving forward. These agreed-upon norms will guide behavior and enable accountability as the year progresses. The specifics are important.

Team member work patterns

Some students like to work late at night, others are early risers and prefer to work in the mornings. Some students work best on a tight deadline, others prefer to work ahead as much as possible. Discuss as a team and share your personal work habits and tendencies.

Use of communication channel

Frequency of response: how much time is reasonable for email and Feishu responses when communicating with each other on the team?	8hours on workdays 24hours on weekends
Tone and usage: how will you indicate if something is urgent? What type of discussions can happen in group vs. what type discussions should happen one-on-one?	Casual. Subgroup -> one-one talk Tech/TC -> feishu group Notice -> Wechat group

Work-together time

When will your team get together to work on the project each week?

Even if you decide to set aside time for sub-teams to meet, you **MUST** still have an “all hands” meeting to work out the interfacing between sub-teams.

Time expectation: 16 hours/week for a 4-credit course, incl. class time.

Based on previous years experience, successful teams who have earned the highest grades schedule time and work together for at least 4 hours per week outside of the instructor meeting time. The remaining hours are spent on individual efforts.

Who will be working together	Day	Time	Location
All members	Every Monday	6pm-8pm	LBL326A
All members	Every Wednesday	6pm-8pm	TBD
Subgroup	Friday	Afternoon	Online

Team Commitment Contract

Punctuality

What is your expectation for punctuality at team working and meeting times?	5mins
---	-------

Meeting management

How will your meetings be run? Will you ever cancel a weekly meeting? How much advance notice is required to cancel work-together meetings?

First, summarize and introduce to each other what we did last week. Then we start to discuss some topics next week we should proceed.

We will only cancel a meeting when all members agree.

A feishu announcement is needed.

Decision making

How will your team make decisions? All collaborative? At some point will you give autonomy to certain members? How will you communicate decisions that are made to one another during independent or subteam work time?	Vote.
---	-------

Project Manager

Will you appoint one person for the term or will you rotate the role?	Zhang Jinbin -> PM
---	--------------------

The PM serves as the project lead/scrum manager; turns in all team assignments; manages the project plan and timeline; delegates tasks; ensures project milestones and deadlines are met.

All team members must review and approve all assignments prior to submission by the Project Manager.

Due to the relatively small size of 441 projects, the PM role cannot be exclusive: even if you appoint one person to be the PM, they MUST also contribute code.

Project publication

How do you want to publish your project at the end of term? By making your project's GitHub repo public or by publishing your app to Apple App Store/Google Play (not free)?

Github OpenSource, App, Paper

Fail fast, fail early, fail often

Team Commitment Contract

When a team member realizes they are stuck and cannot meet deadline, when must they inform the rest of the team?	>24hours in feishu <24hours in WeChat
--	--

Effort expectation

Some students strive for A+, others are happy to pass the course with a C. Have you had an honest discussion among yourselves as to what each member expects from the team? (Y/N)

A/A+

Team conflict

Occasionally, there will be interpersonal team conflicts. How will you handle them? E.g. first discuss with the team member in person? When would you escalate to your instructor?

Communicate personally first. Then start a group chat. If the problem is still unfixed, come to the instructor to seek a solution.

Team Commitment Contract

Following are expected team member behaviors. A demonstrated inability to follow any one of these expectations may cause dismissal from the team. Please let the teaching staff know when this happens. The teaching staff will talk to the team member in person and improve the situation.

Team member did not complete a task that was assigned to them and did not:

- promptly alert the team and teaching staff that they were struggling
- reach out for help to another team mate or teaching staff when struggling
- document their attempts to complete the task

acceptable documentation: several git commits over the days leading up to a deadline, with code showing that the member had put the time and effort into attempting the task rather than fail to complete the task due to procrastination and lack of effort.

2. Team member failed to respond to messages from other team members within the “Frequency of response” stipulated in this Team Commitment Contract and did not:
 - warn the team of a family or medical emergency that would leave them unable to communicate
 - provide teaching staff with a proof of medical/family emergency as reason why they were unavailable
3. Team member failed to show up, call in, or participate in 3 or more team meetings and did not:
 - warn the team of a medical or family emergency that would leave them unable to attend
 - provide teaching staff with a proof of medical/family emergency as reason why they were unavailable
4. Team member failed to conduct themselves professionally and collegially. Professional and collegial interaction and behavior means civil interactions with other team members; it is not acceptable, for example, to yell at or openly insult other team members during group meetings or showing other disrespectful attitudes.
